

Weekapaug Yacht Club

Greetings and a warm welcome from the Weekapaug Yacht Club!

The club is shuttered and Old Man Winter is whistling around the eaves of the clubhouse, and that means it is the time of year for planning the coming summer season! The 2019 calendar of events will soon be posted, but for those planning summer vacations now, we can tell you that the July and August sessions will be thus:

- Session 1 - July 1<sup>st</sup> through July 27<sup>th</sup>
- Session 2 - July 29, through August 25<sup>th</sup>.

If you are a returning member, we look forward to welcoming you back. If you are new to the club, thank you for visiting our site. Organized sailing is the central pillar on which Weekapaug Yacht Club is built, with classes, coaching and competitive racing for sailors from five to 95. But the club offers so much more. Weekapaug Yacht club serves as a gateway to waterfront fun for all people who reside or rent in any of the communities adjacent to Quonochontaug Pond. In addition to sailing, we offer a fleet of kayaks, SUP, recreational sailboats and other watercraft toys, along with attendants who set them up and put them away for you. We offer docks and convenient access to moorings, and beach space to store paddle craft and small sailboats. Social programs for all ages add to the sense of community, while stewardship programs and events promote learning and a love and appreciation for the wildlife and wild places that exist in and around the pond and make our little corner of the world so magical.

It is true that Weekapaug Yacht Club racers love competing with each other, and with other regional clubs, but the club itself is friendly and supportive, and dedicated to providing a welcoming and professional environment for all who wish to recreate on the water and/or socialize in a nautical setting. If you are wondering if a membership in the club is right for you, please feel free to call me at 401-363-5409 to chat. Once we are open for the season, come by anytime and have a tour. In the meantime, please have a look around this website to learn the basics.

Best regards,
